The goal of Iowa Independent School Tuition Organization, Inc. is to meet the maximum amount of financial need with the funds that are available. To achieve this goal, parameters are established each year for tuition assistance in an effort to meet as much of the total demonstrated need as possible. Once the financial need of qualified families is determined (within the established parameters), the funds are distributed to satisfy a percentage of the financial need of qualifying students at each of the schools mentioned above, including the school of your choice. Once the identified needs of families attending a selected school have been met, any unused donations will be made available to other families of within the STO.
